# Food Waste

# What is Food Waste?

# Shops & Cafes

# Farming

# Homes

# Waste

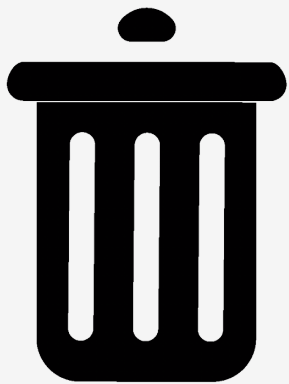

**throws  
away**

**= 13,000  
Olympic pools**

# Food waste feeds climate change...

**8-10%**

of global greenhouse  
gas emissions come  
from food waste

**We can reduce  
our food waste  
at home...**

# How can we waste less food?

1.  
Cook

# How can we waste less food?

2.  
Create

# How can we waste less food?

## 3. Compost

# Why compost?

Stops food waste going to landfill, where it releases greenhouse gases that lead to climate change.
